OUR HISTORY

From 1976 to 1984 Wanda Beauchamp owned and operated the Vicksburg School of Cosmetology. Wanda's two daughters, Karoline and Donna, both graduated from her cosmetology school directly out of high school and spent many years working as business partners in the industry. In 2004, with the guidance of her mother Wanda, Karoline Beauchamp Finch founded The Mississippi Institute of Aesthetics & Nails. In 2006, Karoline once again joined forces with her sister and longtime business partner, Donna Beauchamp Head, and added Cosmetology to the program lineup and the name was updated to The Mississippi Institute of Aesthetics, Nails, & Cosmetology. Donna's husband, Reggie Head, and son, Robert Head joined the Mississippi Institute in 2005 and 2006 respectively. The Mississippi Institute earned its National Accreditation by the National Accrediting Agency for Career Arts & Sciences in 2007 followed their certification from the U.S. Department of Education to offer Title IV funding in 2008. In 2018, the Mississippi Institute relocated from its original location to a brand-new facility with over 8,500 square feet of space. After decades of service in the industry Wanda Beauchamp retired at the end of 2020. Then, in October of 2024, the Mississippi Institute's Founder and President, Karoline Finch suddenly passed away, prompting Donna to take over as the institution's president until she and her husband, Reggie both retired at the end of 2025. Today, the Mississippi Institute operates under the direction of Donna's son, Robert. Since 2004, the Mississippi Institute has enrolled nearly 2600 students and earned itself very respectable reputation throughout the state and region.

Determination Of Progress Status: Students meeting the minimum requirements for academics and attendance at the evaluation point are considered to be making satisfactory academic progress until the next scheduled evaluation. Students will receive a hard copy of their Satisfactory Academic Progress Determination at the time of each of the evaluations. Students deemed not maintaining Satisfactory Academic Progress may have their Title IV Funding interrupted, unless the student is on warning or has prevailed upon appeal resulting in a status of probation. A student will be notified of any evaluation that impacts their eligibility for financial aid.

Warning: Students enrolled in a program of more than 900 clock hours that fail to meet minimum requirements for attendance or academic progress are placed on warning and considered to be making satisfactory academic progress while during the warning period. The student will be advised in writing on the actions required to attain satisfactory academic progress by the next evaluation. If at the end of the warning period, the student has still not met both the attendance and academic requirements, he/she may be placed on probation and, if applicable, students may be deemed ineligible to receive Title IV funds.

Probation: Students who fail to meet minimum requirements for attendance or academic progress after the warning period will be placed on probation and considered to be making satisfactory academic progress while during the probationary period, if the student appeals the decision, and prevails upon appeal. Additionally, only students who have the ability to meet the Satisfactory Academic Progress Policy standards by the end of the evaluation period may be placed on probation. Students placed on an academic plan must be able to meet requirements set forth in the academic plan by the end of the next evaluation period. Students who are progressing according to their specific academic plan will be considered making Satisfactory Academic Progress. The student will be advised in writing of the actions required to attain satisfactory academic progress by the next evaluation. If at the end of the probationary period, the student has still not met both the attendance and academic requirements required for satisfactory academic progress or by the academic plan, he/she will be determined as NOT making satisfactory academic progress and, if applicable, students will not be deemed eligible to receive Title IV funds.

Appeal Procedure: If a student is determined to not be making satisfactory academic progress, the student may appeal the determination within ten calendar days. Reasons for which students may appeal a negative progress determination include death of a relative, an injury or illness of the student, or any other allowable special or mitigating circumstance. The student must submit a written appeal to the school on the designated form describing why they failed to meet satisfactory academic progress standards, along with supporting documentation of the reasons why the determination should be reversed. This information should include what has changed about the student's situation that will allow them to achieve Satisfactory Academic Progress by the next evaluation point. Appeal documents will be reviewed and a decision will be made and reported to the student within 30 calendar days. The appeal and decision documents will be retained in the student file. If the student prevails upon appeal, the satisfactory academic progress determination will be reversed and federal financial aid will be reinstated, if applicable.

Re-Establishment of Satisfactory Academic Progress: Students may re-establish satisfactory academic progress and Title IV aid, as applicable, by meeting minimum attendance and academic requirements by the end of the warning or probationary period.

Interruptions, Course Incompletes, Withdrawals: If enrollment is temporarily interrupted for a Leave of Absence, the student will return to school in the same progress status as prior to the leave of absence. Hours elapsed during a leave of absence will extend the student's contract period and maximum time frame by the same number of days taken in the leave of absence and will not be included in the student's cumulative attendance percentage calculation. Students who withdraw prior to completion of the course and wish to re-enroll will return in the same satisfactory academic progress status as at the time of withdrawal.

Noncredit, Remedial Courses, Repetitions:

Noncredit, remedial courses and repetitions do not apply to this institution. Therefore, these items have no effect upon the school's satisfactory academic progress standards.

Transfer Hours: With regard to Satisfactory Academic Progress, a student's transfer hours will be counted as both attempted and earned hours for the purpose of determining when the allowable maximum time frame has been exhausted. SAP evaluation periods are based on actual contacted hours at the institution.

Student Access to SAP Results:

Following the completion of Satisfactory Academic Progress evaluations students will be notified in writing of the determination within a reasonable amount of time. Students sign and are given a copy of the printed results.

RETURN TO TITLE IV POLICY

1. The Federal Return of Title IV funds formula (R2T4) dictates the amount of Federal Title IV aid that must be returned to the federal government or the lending institution by the school and/or the student. The federal formula is applicable to an eligible student receiving federal aid when that student withdraws on or before the 60% point in time in the enrollment period. If a student does not begin training the R2T4 formula does not apply.
2. For official withdrawals a student's withdrawal date is the date the school received the notice from the student that they are withdrawing.
3. For unofficial withdrawals a student's withdrawal date is their last day of physical attendance.
4. The school's determination that a student is no longer in school for unofficial withdrawals is determined after 8 days of non-attendance. The federal formula requires a Return of Title IV calculation if the student received or could have received (based on eligibility criteria) federal financial assistance in the form of Pell Grants, Stafford Loans, or Plus loans and withdraws on or before completing 60% of the enrollment period. The percentage of Title IV aid earned is equal to the percentage of the payment period that was scheduled to be completed as the withdrawal date if this occurs on or before the 60% point of time. The percentage that has not been earned is calculated by subtracting the percentage of aid earned from 100%.
5. The percentage of the enrollment period completed is calculated by the hours scheduled to be completed in the period as of the withdrawal date divided by the scheduled hours in the period.
6. The amount to be returned is calculated by subtracting the amount of Title IV assistance earned from the amount of Title IV aid that was disbursed as of the withdrawal date. Return of Unearned Aid is allocated in the following order:
 1. Unsubsidized Federal Stafford Loan
 2. Subsidized Federal Stafford Loan
 3. Federal Perkins Loan
 4. Federal Parent (Plus) Loan
 5. Federal Pell Grant
 6. Federal Supplemental Opportunity Grant
 7. Other Title IV Assistance
7. Refunds will be made to the federal programs within 45 days of the date of determination.
8. If a student earned more aid than was disbursed, the school will owe the student a disbursement of the earned aid that was not received at the time of their withdrawal; known as a post withdrawal disbursement. Post withdrawal disbursements will be made from Pell grant funds first if eligible. If there are current educational costs still due the school at the time of withdrawal, a Pell grant post withdrawal disbursement will be credited to the student's account. Any Pell grant funds in excess of current educational costs will be offered to the student. Any federal loan program funds due in a post withdrawal disbursement must be offered to the student and the school must receive the student's permission before crediting their account.
9. From the date the institution determined the student withdrew, grant funds must be paid within 45 days and the loan funds must be paid within 180 days.
10. The statute requires that a student is responsible for all unearned Title IV program assistance that the school is not required to return. This is determined by subtracting the amount returned by the school from the total amount of unearned Title IV funds to be returned.

WITHDRAWAL AND SETTLEMENT / CANCELLATION POLICY

For applicants who cancel enrollment or students who withdraw from enrollment a fair and equitable settlement will apply. The following policy will apply to all terminations for any reason, by either party, including student decision, course or program cancellation, or school closure.

Any monies due the applicant or students shall be refunded within 30 days of official cancellation or withdrawal.

- I. Official cancellation or withdrawal shall occur on the earlier of the dates that:
1. An applicant is not accepted by the school. The applicant shall be entitled to a refund of all monies paid
 2. A student (or legal guardian) cancels his/her enrollment in writing within three business days of signing the enrollment agreement. In this case all monies collected by the school shall be refunded, regardless of whether or not the student has actually started classes.
 3. A student cancels his/her enrollment after three business days of signing the contract but prior to starting classes. In these cases, he/she shall be entitled to a refund of all monies paid to the school less the registration fee in the amount of \$200.
 4. A student notifies the institution of his/her withdrawal in writing.
 5. A student on an approved leave of absence notifies the school that he/she will not be returning. The date of withdrawal shall be the earlier of the date of expiration of the leave of absence or the date the student notifies the institution that the student will not be returning.
 6. A student is expelled by the school
 7. In type 2, 3, 4 or 5, official cancellations or withdrawals, the cancellation date will be determined by the postmark on the written notification, or the date said notification is delivered to the school administrator or owner in person.

- II. Unofficial withdrawals for clock hour students are determined by monitoring students' attendance at least every thirty (30) days. 8 consecutive school days of absences will result in the student being unofficially withdrawn from his/her program of study. Refunds are calculated based on the student's last day of attendance.

- III. For students who enroll and begin classes but withdraw prior to course completion (after three business days of signing the contract), the following schedule of tuition earned by the school applies. All refunds are based on actual hours:

% Of Actual Hours Completed to Contracted Hours			% Of Total Tuition Owed the School
0.01%	to	4.9%	20%
5%	to	9.9%	30%
10%	to	14.9%	40%
15%	to	24.9%	45%
25%	to	49.9%	70%
50%	to	100%	100%

- IV. If a course is canceled after a student's enrollment, and before instruction in the course has begun, or if the school decides to close permanently once instruction has begun, the school shall at its option:

1. Provide a full refund of all monies paid; or
2. Provide completion of the course at a later time

- V. If a school cancels a course and/or program and ceases to offer instruction after students have enrolled and instruction has begun; the school shall at its option:

1. Provide a pro-rata refund for all students transferring to another school based on the hours accepted by the receiving school, or;
2. Participate in a Teach-Out Agreement.

- VI. Any monies due a student who withdraws from the institution shall be refunded within 30 days of a determination that a student has withdrawn, whether officially or unofficially.

- VII. This refund policy applies to the original tuition and fees charged in the enrollment agreement. Other miscellaneous charges the student may have incurred at the institution (EG: kits or extra kit materials, books, products, overtime charges, etc.) will be calculated separately at the time of withdrawal. All fees are identified in the catalog and in this enrollment agreement.

CAMPUS CRIME STATISTICS

The following annual security report provides crime statistics for selected crimes that have been reported to local police agencies or to campus security authorities. The statistics reported here generally reflect the number of criminal incidents reported to the various authorities. The statistics reported for the sub-categories on liquor laws, drug laws, and weapons offenses represented the number of people arrested or referred to campus judicial authorities for respective violations, not the number of offenses documented.
